

How to use apple tv in Classroom.

1. Make sure, apple tv is connected to power and internet cable. It has small white light in its front. (**Note: Apple TV goes into sleep mode if it has not been used for some time, so please turn it off and on from the power switch and see the light flashing in its front**)
2. Connect the HDMI cable to apple TV.
3. Note down, what HDMI port it is connected to.
4. On TV, click on the source button of remote, and see if it's on right HDMI port.
5. Here's how to mirror your entire iOS screen on your Apple TV:
6. Make sure the ipad you want to connect to apple tv is connected with wifi.
7. On your iOS device, swipe up from the bottom of your screen to open Control Center.
8. In Control Center, tap  AirPlay Mirroring, then select your Apple TV from the list. If an AirPlay passcode appears on your TV screen, enter the passcode on your iOS device.
