Principal's Notes:

Dear parents and friends,

The school council held their monthly meeting on Wednesday evening. They checked the school finances, spoke about the success of the Sheep Drive (we are still basking in the warm after-glow of this magnificent effort), reviewed a large number of policies and worked through a number of maintenance and grounds issues. I am always very thankful we have such a willing and positive school council.

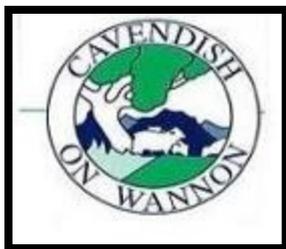

It was decided to cancel the planned working bee on Sunday.

It has been a pleasure to have Rachel Huf in our school this week. Rachel is almost at the end of her teacher training and this one-week rural placement is her final school's experience. Rachel has worked in all classrooms and quickly got to know all the students. She has experienced life in a small school and engaged with all staff members. We have been impressed with her enthusiasm, willingness to apply herself to her work and the positive and caring approach she has shown to the children. We wish her every success in her future career and she knows she will always be welcome at Cavendish PS.

There is only a week until our team heads off to Branxholme to compete in the inaugural Readers' Cup organised by Mr Porter from the MARC van. The students have been working on their presentation to the group. They have written a script based on events in one of the books. They will present their work to the group and then undertake a series of quizzes and challenges to show their understanding of the four novels they have read. We wish them every success with their endeavours.

We are continuing our morning walks as a whole school as part of the 'Walk to School' month. This morning Miss P led us on a meandering course around the highways and byways of Cavendish. I was at the tail of the procession and wasn't sure which way we were heading. Next Tuesday a representative from the Bendigo Bank will be walking with us and will provide a fruit platter to the children at the end of our morning walk.

Lisa Ferrier completed the second day of her Aspirant Leaders course in Horsham on Tuesday. She had to present to the group following her project work throughout the year. We hope this training will assist Lisa in the future should she wish to pursue school leadership options.

Thank you to all students (and families) for returning so many MARC books this week. Mr Porter was inundated with returns. As we approach the end of the MARC visits, it is important for all families to check around the house for any unreturned MARC books.

Our next 'Blitz' theme will be "saying nice things" (thanks Lexi for the idea of the importance of 'kind words'). This new blitz theme complements our recent 'bucket filling' blitz. How many kind words have you managed to share today?

About head lice

Head lice have been around for many thousands of years. Anyone can get head lice and given the chance head lice move from head to head without discrimination.

- Head lice are small, wingless, blood sucking insects.
- Their colour varies from whitish-brown to reddish-brown.
- People get head lice from direct hair to hair contact with another person who has head lice.

Head lice do not have wings or jumping legs so they cannot fly or jump from head to head. They can only crawl.

Finding head lice

Lice can crawl and hide. The easiest and most effective way to find them is to follow these steps:

Step 1

Comb any type of hair conditioner on to dry, brushed (detangled) hair. This stuns the lice and makes it difficult for them to grip the hair or crawl around.

Step 2

Now comb sections of the hair with a fine tooth, head lice comb.

Step 3

Wipe the conditioner from the comb onto a paper towel or tissue.

Step 4

Look on the tissue and on the comb for lice and eggs.

Step 5

Repeat the combing for every part of the head at least 4 or 5 times

If lice or eggs are found, the child's hair should be treated.

Head lice eggs are small (the size of a pinhead) and oval. A live egg will 'pop' when squashed between fingernails.

Life cycle of head lice

1. Egg is laid on hair shaft. Egg is called a nit.
2. Louse emerges after six to seven days.
3. First moult two days after hatching.
4. Second moult 5 days after hatching.
5. Third moult 10 days after hatching.
6. Emerging from their third moult as adult lice, the female and slightly similar male begin to reproduce.
7. Female lays first egg one or two days after mating.

8. Female can lay approximately three to eight eggs per day for the next 16 days.

Having lived 32 to 35 days the louse dies.

Treating head lice

- Concentrate on the head - there is no evidence that you need to clean the house or classroom.
- No treatment kills all of the eggs so treatment must involve two applications seven days apart.
- If you are using lotions, apply the product to dry hair.
- There is no need to treat the whole family, unless they also have head lice.
- Only the pillowcase requires specific laundering; either wash it in hot water (at least 60 degrees centigrade) or dry it using a clothes dryer on the hot or warm setting.
- There is no product available that prevents head lice. Using the conditioner and comb method once a week will help you detect any head lice early and minimise the problem. Tying back long hair can help prevent the spread of head lice.

Combs with long, rounded stainless steel teeth positioned very close together have been shown to be the most effective, however, any head lice comb can be used.

Bushfire At-Risk Register - Schools

School procedures for the bushfire season

Fire danger ratings and warnings are used in Victoria to provide clear direction on the safest options for preserving life.

Schools and children's services listed on the DET Bushfire At-Risk Register (BARR) will be closed when a Code Red fire danger rating day is determined in their Bureau of Meteorology district.

Cavendish Primary School has been identified as being one of those at high bushfire risk and is listed on the BARR.

Where possible, we will provide parents with up to four days notice of a potential Code Red day closure by letter and/or SMS message. A Code Red day will be determined by the Emergency Management Commissioner no later than 1.00 pm the day before the potential closure. Once we are advised of the confirmation of the Code Red day we will provide you with advice before the end of the school day.

Once confirmed, the decision to close will not change, regardless of improvements in the weather forecast. This is to avoid confusion and help your family plan alternative care arrangements for your child. It is also important to note that:

- No staff will be on site on days where the school is closed due to a forecast Code Red day.

- School camps will be cancelled if a Code Red fire danger rating day is determined for the Bureau of Meteorology district in which the camp is located.
- As a bus co-ordinating school all bus routes will be cancelled.

On these Code Red days, families are encouraged to enact their Bushfire Survival Plan – **on such days children should never be left at home or in the care of older children.**

For those of us living in a bushfire prone area, the CFA advise that when Code Red days are forecast, the safest option is to leave the night before or early on the morning of the Code Red day.

As part of preparing our school for potential hazards such as fire, the school has updated and completed our Emergency Management Plan.

What can parents do?

- Make sure your family’s bushfire survival plan is up-to-date and includes alternative care arrangements in the event that our school is closed.
- Ensure we have your current contact details, including your mobile phone numbers. Keep in touch with us by reading our newsletters, by checking our website <http://cavendishps.vic.edu.au/> and by talking to your child’s teacher or any other member of the teaching staff about our emergency management plan. Immediate contact can be made through the school’s phone number prior to any Code Red Day on (03) 55742282 or directly to the principal’s mobile on 0402526258.

Most importantly at this time of year, if you’re planning a holiday or short stay in the bush or in a coastal area, you should check warnings in advance of travel and remain vigilant during your stay.

If your child is old enough, talk to them about bushfires and your family’s bushfire survival plan.

You can access more information about children’s services closures on the Department of Education and Training website – see <http://www.education.vic.gov.au/about/programs/health/pages/closures.aspx>
